

Concordia Sloop Boat, 1964 and Beetle Boat Company Swan, ca. 1946

Before making these craft available to the general public, Mystic Seaport would like to offer CAMM members the chance to purchase two small boats that are surplus to the needs of the museum.

The first is a Concordia sloop boat, designed by Pete Culler and built by The Concordia Company in 1964. The boat is in original, good condition, but has been in dry storage for quite some time. The asking price is \$6,000.

Also available is a Beetle Boat Company Swan, ca. 1946, one of the earliest ventures to produce fiberglass boats. The Swan is in fair condition and does not have its rig. The price is \$300.00.

Both boats are offered without trailers, as-is, where-is, at Mystic, CT. For more information, please contact Kurt Voss at kurtvoss@historicboats.com or (409) 789-1315.
